

HAILEYBURY

19 October 2021

Dear Parent/Guardian

Updated Advice: COVID-19

I write to provide you with Haileybury's latest update regarding the COVID-19 pandemic. This communication addresses the following:

1. Return to Campus
2. Out of School Hours Care
3. ELC Parent/Guardian Proof of Vaccination
4. Visitors to Campus & Vaccination Requirements
5. Resilient Kids Virtual Conference 2021

1. Return to Campus

We are delighted to be bringing back our students earlier than originally planned, as per the announcement from the Premier on Sunday. Please find the attached updated roadmap to assist you in understanding when your child(ren) will return to on-campus learning.

This staggered/part-time approach to on-campus classes will remain until the expected return of all year levels on Friday, 5 November, according to Government and Health advice. Online classes will run as usual on days that year levels are required to learn from home, until their full-time return to campus.

2. Out of School Hours Care

The Out of School Hours Care program is now available for students to attend only on the days they are scheduled for on-campus learning, as detailed in the attached and abovementioned Roadmap.

3. ELC Parent/Guardian Proof of Vaccination

In accordance with Government and Health advice, from Friday, 22 October, students may access Haileybury's ELC if they fall under any of the below criteria:

- Their parent/carer is an authorised worker and has no access to appropriate alternative care
- Their single parent/carer is working
- They are vulnerable and/or have a disability
- Both of their parents/carer are fully vaccinated
- If they are from a single parent family, their parent/carer is fully vaccinated.

www.haileybury.vic.edu.au ABN 34 004 228 906	Keysborough 855 Springvale Road Keysborough Victoria 3173 Australia +61 3 9904 6000	Brighton 120 South Road Brighton East Victoria 3187 Australia +61 3 9904 6004	Berwick 138 High Street Berwick Victoria 3806 Australia +61 3 9904 6006	City 383 King Street West Melbourne Victoria 3003 Australia +61 3 9904 6008	Beijing 6 Gongxue Road Gaocun County Wuqing District Tianjin, China + 86 22 6097 8159	Haileybury Rendall School (Darwin) Lot 6057 Berrimah Road Berrimah Northern Territory 0828 Australia +61 8 8922 1611
--	---	---	---	---	---	--

If you wish to access the Haileybury ELC from Friday, 22 October, please complete [this form](#) Wednesday, 20 October, and provide any relevant documentation and evidence.

4. Visitors to Campus & Vaccination Requirements

As per the Government's vaccination mandate in the education sector, the following people need to be vaccinated in accordance with the timeframes set out by the Chief Health Officer in the Mandatory Vaccination (Specified Facilities) Directions (No.6) to attend a School site:

- All staff
- All contractors and visitors (excluding couriers and delivery drivers)
- Parents, when attending site to meet with a Haileybury staff member or for any purpose other than dropping-off or collecting their child(ren).

Parents of students in Prep to Year 12 are not required to be vaccinated to drop-off or collect their child(ren) providing they do not enter School buildings. Parents/guardians of ELC students who are authorised workers are required to be vaccinated under the Government Directions.

Visitors to Haileybury campuses are required to complete pre-site forms to advise of COVID-19 vaccination and Working with Children Check status. Instructions on how to complete these forms prior to visiting site can be found in the attached Parent FAQs and on the Haileybury website.

Please note, whilst all visitors are required to complete the Working with Children Check screening, they may not be required to hold a Working with Children Check depending on the nature of their visit and relationship to the School. The screening form will guide the submitter through the appropriate options and will only request a Working with Children Check if required.

5. Resilient Kids Virtual Conference 2021

This year, the Resilient Kids Virtual Conference is being held on Saturday, 23 October, and we are pleased to share a complimentary ticket to this very important event for all Haileybury families and staff. The conference is a one-day event specially for parents, educators, young leaders and anyone working with young people.

Topics explored include:

- Building every day resilience in children and teens
- The secrets of post pandemic wellbeing in young people
- Caring for our own wellbeing as adults
- Cultivating resilience in the presence of Autism and Anxiety
- Navigating the online world – lockdowns and remote learning
- What to do – alcohol and drugs and teens.

What began as a once-only event in Melbourne in 2016 soon grew to become a national roadshow featuring Australia's top experts sharing on a variety of issues that are affecting our young people today. Please see the flyer below for details on how to secure your complimentary ticket.

We will continue to keep you informed and appreciate your ongoing understanding and cooperation as we keep our community safe.

Yours sincerely

A handwritten signature in blue ink, appearing to read 'Scott Doran', with a stylized flourish at the end.

Scott Doran

Vice Principal

Community Engagement & Advancement

The roadmap

Haileybury's return to school key dates

Year Level	From Monday, 18 October	From Monday, 25 October	From Friday, 5 November
ELC	Monday – Friday (for students of eligible parents/guardians)	Monday – Friday (for students of fully vaccinated parents/guardians)	Full-time return of all students to on-campus learning (subject to Government advice)
Prep	Monday – Wednesday	Monday – Wednesday	
Years 1–2	Thursday & Friday	Thursday & Friday	
Years 3–4	–	Tuesday & Wednesday	
Year 5–6	Friday	Thursday & Friday	
Year 7	Friday	Monday – Friday	
Years 8–9	–	Tuesday & Wednesday	
Years 10–12	Schedule will be communicated by the Senior School Office		

Note: Monday, 1 November, is a student-free day and Tuesday, 2 November, is the Melbourne Cup public holiday.

Masks:

The Chief Health Officer has mandated face masks be worn indoors while on school premises for students in Years 3–6, and strongly recommended that they be worn for students in ELC to Year 2. Students in Year 7 and above must wear masks indoors and outdoors. Any exemption from mask wearing requirements must be supported by a medical certificate.

Access to Campus/Pick-up & Drop-off:

Parents will be required to stay within 1.5m of their car to drop-off and pick-up children. Please abide by campus instructions and signage. Contact with the School should be made via the myHaileybury app, phone or email as required.

Visitors to the campus will be limited to essential providers only.

Frequently Asked Questions: Parents

COVID-19

What are the symptoms of COVID-19?

Symptoms include:

- fever
- chills or sweats
- cough
- sore throat
- shortness of breath
- runny nose
- loss or change in sense of smell or taste.

Some people may also experience headache, muscle soreness, stuffy nose, nausea, vomiting and diarrhoea.

According to health advice, symptoms may appear in as few as two days or as long as 14 days after exposure.

Although some cases can be asymptomatic, the vast majority of people who have contracted the virus will display at least some symptoms.

HEALTH OF HAILEYBURY'S COMMUNITY

What can parents/guardians do to keep children safe?

It is important to stay informed and follow the requirements of the School and public health officials.

If your child displays any symptoms consistent with COVID-19, they should be tested and remain home until receiving a negative result. Children who are unwell and may pass on illness to others should be kept at home until symptoms subside, even after receiving a negative result.

Continue to remind your child(ren) about healthy habits and reinforce precautions taken regularly to prevent the spread of germs, like washing hands and covering their coughs and sneezes.

Should students wear masks at school?

The Chief Health Officer has mandated that students in Years 3 and above wear fitted face masks when and where required under Victorian Government restrictions (and strongly recommends for students in ELC to Year 2), unless under a permitted exemption. The School may request documentation supporting any exemption to mask wearing requirements.

When face masks are required to be worn indoors, this includes on School buses.

Parents/guardians should monitor School communications via the myHaileybury app as we will communicate changes in mask wearing requirements as they occur from time to time.

Frequently Asked Questions: Parents

What procedures are in place if a Haileybury student, family member or someone from our community contracts the virus?

Haileybury's COVID-19 Emergency Response Plan will be enacted, and the School will follow the directives of the Victorian Department of Health and Human Services (DHHS). Typically, this will involve a period of campus closure and a cleaning and sanitisation program, alongside the DHHS contact tracing processes.

Will parents be notified if there is a confirmed case of the virus at Haileybury?

We will follow all protocols, as advised by DHHS. Haileybury has a specific COVID-19 Emergency Response Plan that will be implemented if required. A decision to inform the School community will be made case by case, depending on if there has been close contact with people at the School. The health and wellbeing of our community is at the heart of all decisions.

Will Haileybury share information about staff, parents or other students in light of the heightened concerns?

Haileybury cannot share personal and confidential health information about any staff member, parent or student with other parents/guardians, in accordance with the Australian Privacy Principles.

CLOSE CONTACTS AND POSITIVE COVID CASES

What do I need to do if someone in my household tests positive for COVID-19?

If someone in your household tests positive for COVID-19, you should follow the current Victorian Government advice which can be found [here](#).

Please contact the School immediately to advise of the positive test so that we can manage any potential transmission risk or contact tracing as required, particularly if anyone in your household has had contact with the School in the 14 days prior to the positive test. Your campus team will discuss how your child(ren) can be supported to continue their Schooling whilst in isolation.

What do I need to do if my child tests positive for COVID-19?

If your child tests positive for COVID-19, please follow the advice above.

Under current government guidance, the School requires evidence of written confirmation that your child may exit isolation following a positive COVID test before they can be allowed to return to on-site learning.

What if my child is a Primary Close Contact (PCC) of a positive COVID case?

If your child is a PCC, you should follow the advice provided by the Victorian Government, available [here](#).

The Department of Education has advised the following updated information regarding the management of PCCs in Schools:

- The Department of Health will send an SMS to PCCs advising them of their quarantine, testing and release dates (this may take some days)

Frequently Asked Questions: Parents

- Primary school Primary Close Contacts will be asked to isolate until they clear a Day 13 test
- Secondary school Primary Close Contacts will be informed that if they are vaccinated, they should isolate for seven days and may be able to return to school after a Day 6 test, depending on local school arrangements. If the Primary Close Contacts are unvaccinated, they will be required to isolate for 14 days and can return to school after a Day 13 test. Students will need to show evidence of their test and vaccination status when they return to school
- Families/households of Primary Close Contacts will no longer be required to limit their movements or stay at home.

What if my child is a Primary Close Contact (PCC) of a positive COVID case and is undertaking VCE Exams?

There are special provisions for VCE students who are PCCs and undertaking their VCE exams to undertake their exams on site whilst in quarantine.

The VCAA has provided the following guidance:

- Any student who receives notification from the Department of Health that they are PCC of a confirmed case must immediately quarantine
- PCCs will be required to undertake a COVID-19 test immediately upon being identified as a PCC
- PCCs who are fully vaccinated and not identified as a household PCC:
 - Will need to quarantine for 7 days, and
 - Are required to undertake additional COVID-19 tests at day 2, 4 and 6, and
 - Will only be allowed to sit examinations if they comply with all requirements, including only leaving quarantine for initial testing; testing on the required days; and do not return a positive result or develop symptoms.
- PCCs who are not fully vaccinated or are identified as a household close contact:
 - Will need to quarantine for 14 days, and
 - Are required to undertake additional COVID-19 tests at day 2, 4, 6 and 13, and
 - Will only be allowed to sit examinations if they comply with all requirements, including only leaving quarantine for initial testing; testing on the required days; and do not return a positive result or develop symptoms.
- VCE students who are symptomatic or PCCs will be given priority 1 status at testing sites
- Students who are PCCs and who are attending an examination must complete their exam(s) in a designated PCC Examination Room.

VACCINATION REQUIREMENTS

The Victorian Government has mandated COVID-19 vaccinations in the Education sector. Who needs to be vaccinated to enter a Haileybury campus?

The following people need to be vaccinated in accordance with the timeframes set out by the Chief Health Officer in the Mandatory Vaccination (Specified Facilities) Directions (No.6) to attend a School site:

- All staff
- All contractors and visitors (excluding couriers and delivery drivers)

Frequently Asked Questions: Parents

- Parents, when attending site to meet with a Haileybury staff member or for any purpose other than dropping-off or collecting their child(ren).

Parents of students in Prep to Year 12 are not required to be vaccinated to drop-off or collect their child(ren) providing they do not enter School buildings. Parents/guardians of ELC students who are authorised workers are required to be vaccinated under the Government Directions.

What are the timeframes for mandatory vaccination?

According to the Victorian Government Directions, those listed above as requiring mandatory COVID vaccination must meet the following timeframes:

18 October 2021

- Fully vaccinated (double dose), or
- Partially vaccinated (single dose) and have the second dose booked in to be received by the 29 November, or
- Not vaccinated and have the first dose booked in to be received by the 25 October.

25 October 2021

- Fully vaccinated (double dose), or
- Partially vaccinated (single dose) and have the second dose booked in to be received by the 29 November.

29 November 2021

- Fully vaccinated (double dose).

How do I provide my vaccination status to the School if I am attending site for a purpose other than dropping off or collecting my child(ren)?

As of Monday, 18 October, anyone attending site who requires COVID-19 vaccination will need to complete the mandatory pre-screening forms for COVID-19 Vaccination and Working with Children Check requirements (which can be found at the links or QR codes below) and will be required to sign-in using the Sine Pro app, available from the Apple App Store or Google Play.

COVID-19 Vaccination Status

<https://sine.co/wf/qNxruksf>

You will need your COVID-19 Immunisation Certificate, available from your myGov account or any medical exemption.

Working with Children Check

<https://sine.co/wf/zdPLXUiH>

You will require a copy of your WWCC card (this can be captured via your device camera from within the form if completing on a mobile device).

Frequently Asked Questions: Parents

Not all visitors to the School will require a Working with Children Check in all circumstances, however, the screening form will guide you through the appropriate options and will only request your Working with Children Check if required based on the nature of your visit.

TRANSMISSION CONTROL

What cleaning is taking place at school?

Haileybury's cleaning contractors are following protocols to thoroughly clean frequently used areas and touched surfaces using hospital grade disinfectant cleaners. Cleaning staff are placing emphasis on door handles, light switches, remote controllers, soap/paper towel dispensers, student desks, tables, chairs and bathroom fixtures.

Additional hand sanitising stations have been installed throughout the School, including in staff rooms, classrooms and other student and common spaces.

What are the expectations for handwashing and other hygiene practices?

As per guidance from Government health officials, students & staff are instructed to regularly wash their hands (for 20 seconds, or use hand sanitiser) when they arrive at school, when entering classrooms and common spaces, before they go home, as well as at other key points in the day, including after using the restroom, and before and after consuming food. This is an important preventive step to reduce the possible spread of COVID-19 and other illnesses and is being reinforced at Haileybury.

Other recommended hygiene practices include:

- Covering coughs and sneezes with one's elbow or a tissue and placing used tissues straight into the bin
- Avoiding touching one's eyes, nose and mouth
- Encouraging students not to share food or drink.

Haileybury's canteen continues to adhere to the strictest food hygiene preparation standards.

Other hygiene practices are in place, such as anti-bacterial wiping of surfaces after use in common spaces.

Until further notice we have closed all communal water fountains/bubblers, although students may continue to fill their water bottles from the taps provided.

Will student temperatures be taken on arrival to School?

Mandatory student temperature checks may be implemented during periods of heightened restriction or where the School determines that there is an increased risk of transmission at the School or in the wider community.

Parents/guardians should monitor School communications via the myHaileybury app as we will communicate changes in temperature checking requirements as they occur from time to time.

Frequently Asked Questions: Parents

Are there social distancing requirements in place?

All adults attending the School are required to adhere to social distancing requirements where possible, including maintaining at least 1.5m distance from others and adhering to space density and capacity limits.

Students are encouraged to maintain social distancing wherever possible and various measures have been implemented at each campus to minimise the need for student congregation. We do however recognise that this will not always be possible in a school environment.

We ask that parents/guardians remind their children to maintain social distancing wherever possible.

What other measures does the School have in place to minimise the risk of transmission?

Some of the School's other measures include:

- Increasing air flow and ventilation indoors by keeping doors and windows open where possible, and increasing forced ventilation where applicable
- Minimising the attendance of contractors, parents and other visitors on site during community outbreaks
- Restricting canteens to order service only during community outbreaks
- Enforcing capacity and density limits where applicable
- Enforcing site sign-in and government check-in requirements to ensure effective contact tracing should a confirmed case occur
- Implementing specific procedures to manage sanitisation of shared equipment.

VENTILATION AND INDOOR AIR QUALITY

Has the School done anything to improve ventilation indoors?

The School is undertaking an extensive program to improve ventilation and indoor air quality in all of its buildings. This program has involved specialist air handling and ventilations consultants, engineers and certified occupational hygienists.

Improvements delivered to date through the program include:

- Audits of each individual room at all campuses to identify, document and assess a range of aspects contributing the ventilation capabilities of the space
- Installation of approximately 600 Co2 monitors across the campuses to enable real-time monitoring of Co2 levels as an indication of fresh air ventilation levels
- Installation of in-line fans plus ductwork, grilles and cowls across the School to improve the natural ventilation indoors
- Installation of portable HEPA filtration units in spaces where fresh ventilation is unable to meet the School's minimum standards
- Individual procedures produced for each room to instruct staff on the optimal setup for the space (e.g. which windows and doors to open etc. to maximise cross-flow ventilation, based on specialist advice)
- Installation and upgrade of air handling systems in various locations throughout the School
- Running air handling systems at the City campus on maximum possible fresh air return (optimally 100%).

Frequently Asked Questions: Parents

Is the School monitoring Co2 levels in classrooms?

Yes, the School has invested in approximately 600 Co2 monitors which are currently being installed across all campuses and provide real time data which is centrally monitored to ensure that adequate levels of fresh air exchange are occurring.

Has the School installed HEPA filters in classrooms?

HEPA filters have been installed in rooms where it is difficult to achieve an adequate level of fresh or cross flow of air ventilation. This has been determined by extensive investigation and specialist advice.

Has the School's Healthy Buildings Initiative taken into account all rooms or just classrooms?

Every room in the School at all campuses has been assessed to ensure that every occupiable space has ventilation and or filtration capacity commensurate to its use.

RAPID ANTIGEN TESTING

Is the School using Rapid Antigen Testing?

The School has developed the capacity to administer Rapid Antigen Testing where required. School nurses have received the appropriate training and the School has procured Rapid Antigen Test kits.

Currently, the use of Rapid Antigen Testing at the School is primarily for situations where there is a known elevated risk of transmission due to a particular set of circumstances.

Parent consent will be obtained before Rapid Antigen Testing is administered for any student under the age of 18.

STUDENT ABSENCES

When should I keep my child home from school?

You should keep your child at home if they display any COVID-19 related symptoms, including fever, chills and sweats, coughing, sore throat, fatigue, and shortness of breath, runny nose and loss or change in sense of smell or taste. Anyone experiencing these symptoms should seek a COVID-19 test immediately and remain home until receiving a negative result.

Children who are experiencing symptoms should stay home until symptoms subside, even after receiving a negative result, to avoid passing on illness to others at the School.

Close contacts of confirmed cases and people who have visited public exposure sites must get tested and self-isolate in accordance with the Victorian Government requirements, explained [here](#).

I am required to keep my child at home in self-isolation. What happens then?

When required to self-isolate, students will be marked as an 'approved absence'. From Prep onwards, the School will work with the family to include the child in classes, where possible, by zooming into rooms and providing work for the student. Families must notify the School daily of the absence via the myHaileybury App.

Frequently Asked Questions: Parents

What is the quickest way to contact the School if a student is unwell?

Please inform the School of your child's absence via the absentee button on the myHaileybury app.

Will my child's absence be counted as 'absent' or 'approved absence' if under quarantine?

Students who are absent because of COVID-19 symptoms or a requirement to self-isolate will be recorded as 'medically absent'.

Will educational material be made available for students unable to attend school?

Students who are unable to attend school will be provided educational material via Canvas (myLearning). To request access to this material, please be in contact with your Head of Campus.

SCHOOL PICK-UP/DROP-OFF, ELC & OUT OF SCHOOL HOURS CARE

What are the procedures for dropping off and picking up my child(ren) from Haileybury?

Pick-up and drop-off arrangements will change over the year, dependent on the current COVID-19 circumstances. Parents/guardians are asked to abide by the current pick-up/drop-off instructions as notified by the campus in communications and visible signage.

What procedures are in place at the Early Learning Centres?

One parent/guardian is required to drop off and collect their child(ren) from the ELC. This will assist to minimise the volume of parents/guardians at drop off and collection areas on a daily basis. Staff will be on hand to assist with signing children in and out of the ELC and assist children with morning, afternoon and/or evening routines.

You may have noticed the ELC's Coronavirus Guidelines and Procedures Poster on display which outlines the steps we are taking to minimise the spread of any infectious illness, links to the latest Government information and requirements. This can be accessed here:

ELC COVID-19 Guidelines and Procedures

You will need your parent sign in details

Frequently Asked Questions: Parents

What are the procedures of child pick-up and drop-off to TeamKids and Camp Australia (Out of School Hours Care)?

Parents/guardians are allowed on-site to collect their child(ren), given the legal requirement that students be signed in/out. A parent/guardian will not be required to sign their child(ren) in or out on an iPad – TeamKids and Camp Australia staff will do that, however, a parent/guardian still need to escort child(ren) in and out of their program.

Parents/guardians are required to observe the School's social distancing measures and are asked to refrain from engaging in social conversations whilst on campus.

VISITORS TO THE CAMPUSES

Can visitors be on site at Haileybury?

Regulations for visitors attending the campuses will change dependent on the current COVID-19 context. Visitors should ensure they abide by the current advice as provided by the School.

HAILEYBURY BUSES

Are students required to wear a mask while on Haileybury's bus service?

While the State Government requires masks to be worn on public transport, students must also wear a mask while using Haileybury's bus service.

Will social distancing apply on Haileybury's bus service?

Haileybury requires students to maintain social distancing wherever possible. Whilst travelling on School buses it may not always be possible to maintain physical distance from other students. The following measures are outlined to manage the risk of COVID-19 transmission when riding the Haileybury buses:

- Maintain at least 1.5m distance from others where possible when queuing to board the bus
- Utilise hand sanitiser when boarding the bus
- Utilise your student card to tap on and off the bus using the bus minder system, rather than entering your student number. If you do not have a current student card, contact Haileybury Service Central to obtain a new card. (Myki cards must be tapped on and off when riding PTV route buses)
- If you must enter your student number, use hand sanitiser before and after touching the bus minder terminal
- Where space allows, sit on every second seat
- Maintain good personal hygiene – cough or sneeze into a tissue or your elbow; avoid touching your face; avoid touching others.

What measures has Ventura (Haileybury's bus company) point in place?

Ventura has implemented the following measures for the Haileybury bus network:

- Front row seats on all buses have been excluded to maintain distance between drivers and passengers
- Myki terminals at the front of buses have been turned off and only the rear terminals can be used for tap on/off (only relevant to PTV network buses)

Frequently Asked Questions: Parents

- A daily regime of sanitisation is employed for all buses and buses are wiped down after each morning and afternoon school run
- Driver health and fitness for duty is monitored are part of a stringent program.

Do students still need to tap on and off while using the service?

Families are reminded that all students travelling on Haileybury's bus network are required to tap on and off with their student card, or enter their student number, each time they board and disembark the bus. This is not only a requirement of the School during normal operation but also provides a valuable tool in contact tracing should a positive case of COVID-19 be identified in the School community.

IT HELP DESK

Will IT Help Desks be open on campus?

IT Help Desks are operating for on-campus learning. Students and staff are encouraged to seek IT support via the online Service Central where possible. When attending an in-person Help Desk, students and staff will be asked to wipe down their hardware using antibacterial wipes provided before handing their hardware to the support technician. Students and staff will also be required to follow social distancing requirements when attending Help Desks.

TEACHING & LEARNING

Will my child's Year 12 course work and assessments be given special consideration?

The School is informed by the information provided by the Victorian Curriculum and Assessment Authority (VCAA) Please [click here](#) to be directed to the VCAA website.

How does the School authenticate and use the SACs that were conducted whilst online?

VCAA provides the School with specific requirements in order to authenticate the SACs that were conducted online. Please [click here](#) to be directed to the VCAA website.

What if I choose not to send my child?

If the advice from State Government is that it is safe to return, then it would be the School's expectation that all students are back on site. There are significant complexities for a teacher to deliver in two modes (to the students in a classroom and via Zoom) simultaneously. If your child is medically vulnerable, then please contact your Head of Campus to discuss how the School can support your family.

What if a teacher falls into the vulnerable category and cannot be at work? Will my child still be taught?

Yes. The teacher will deliver the lesson via Zoom and there will be an additional supervising teacher in the room to assist students. The School has been using Zoom as a way to deliver Latin over multiple campuses for many years, so we feel confident in this mode of delivery.

Frequently Asked Questions: Parents

How will Parent-Teacher Interviews be conducted?

Parent-Teacher interviews will be conducted via Zoom using the normal booking system. Parents are encouraged to use their first and last name when logging in to Zoom so the teacher can identify them in the waiting room.

How do I communicate with the School?

All communication needs to be online via email, phone or Zoom.

FURTHER INFORMATION

Where can I find further information in relation to COVID-19?

Helpful information during this COVID-19 pandemic may be found via the following avenues:

- [Coronavirus Victoria Website](#) Latest information on restrictions, health advice and COVID safety measures.
- [Department of Health](#) – For the latest health advice, information and resources.
- [National Coronavirus Helpline](#) – The hotline 1800 020 080 operates 24 hours a day, seven days a week. If you require translating or interpreting services, call 131 450.
- [National Mental Health Commission](#) – The Commission provides mental health information and support for people who are feeling concerned, anxious or uncertain due to the COVID-19 pandemic.
- All hours (24/7) support lines include:
 - [Beyond Blue](#): 1300 22 4636
 - [eheadspace](#): 1800 650 890
 - [Kids Helpline](#): 1800 55 1800
 - [Lifeline](#): 13 11 14
 - [MensLine](#): 1300 78 99 78
 - [MindSpot](#): 1800 61 44 34
 - [Open Arms](#): 1800 011 046
 - [Suicide Call Back Service](#): 1300 659 467.

People are also encouraged to speak with their General Practitioner about any mental health concerns they may have.
